Education

Graphic Era Hill University **2024 - 2028**
Bachelor of Technology in Computer Science and Engineering (CGPA of 7.6) *Dehradun, Uttarakhand*

Doon International School **2024**
Senior Secondary Education (CBSE) *Dehradun, Uttarakhand*

Summer Valley School **2022**
Secondary Education (ICSE) *Dehradun, Uttarakhand*

Projects

GEHU Connect – Student Community & Networking Platform **2026**
Java, Spring Boot, React Native, Expo, Cloudflare R2, AWS SDK

- Engineered a full-stack university networking platform enabling student communication, community interaction, and centralized campus engagement.
- Designed and developed scalable REST APIs using Spring Boot and built a cross-platform mobile application using React Native and Expo.
- Implemented cloud-based media storage and optimized file handling workflows using Cloudflare R2 and AWS SDK integrations.
- Focused on modular backend architecture, scalable data flow, and production-oriented mobile application development practices.

OmniMentor – Anticipatory AI Classroom OS | *Next.js, React.js, Node.js, Python, AI APIs* **2026**

- Developed an AI-powered adaptive learning platform capable of predicting learner doubts and dynamically personalizing educational workflows.
- Built intelligent context-aware systems integrating AI APIs for automated explanation generation, learning assistance, and real-time interaction.
- Architected modular AI components including OmniProfile, OmniPredict, OmniLoop, and OmniFlow for scalable adaptive classroom experiences.
- Integrated frontend, backend, and AI orchestration pipelines to simulate production-grade intelligent educational systems.

AutoHire – AI-Powered Hiring Platform | *Node.js, Kafka, Zookeeper, MongoDB* **2025**

- Built an event-driven recruitment platform to automate candidate workflow management and reduce manual hiring coordination overhead.
- Implemented distributed asynchronous communication pipelines using Apache Kafka and Zookeeper for scalable backend event processing.
- Designed backend services for candidate tracking, workflow orchestration, and real-time recruitment pipeline management.
- Worked with distributed system concepts, scalable messaging infrastructure, and production-style backend architecture patterns.

Technical Skills

Languages : Java, Python, JavaScript, SQL, HTML/CSS
Frameworks & Technologies : MERN Stack (MongoDB, Express.js, React.js, Node.js), Spring Boot, React Native, Next.js, Expo
Databases : MySQL, MongoDB
Cloud & Dev Tools : Git, GitHub, Kafka, Zookeeper, Cloudflare R2, AWS SDK, Postman, VS Code, Figma, Jupyter
Core CS Concepts : Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, REST APIs, System Design

Certifications & Professional Development

- Python Crash Course.
- Introduction to Machine Learning.
- Databases and SQL.

Achievements & Extra Curriculars

Director General, Graphic Era MUN Club **2025**

- Leading and managing university-level MUN operations including committee planning, delegate management, event execution, and inter-team coordination.

Host & Organizer, University Model United Nations Conferences **2025 – 2026**

- Successfully organized and hosted multiple Model United Nations conferences, overseeing event logistics, committee operations, and participant engagement.

MUN Outreach & Public Speaking Initiatives **2025**

- Conducted MUN seminars, mock sessions, and promotional workshops across 15+ schools in Dehradun, helping increase student participation and awareness about competitive debating and diplomacy.

Delegate Experience – International Relations & Debate **2024 – Present**

- Represented countries including Pakistan, Switzerland, and Mexico across committees such as UNGA DISEC and IOC, strengthening skills in public speaking, negotiation, research, and leadership.
